Experienced in designing, building, and maintaining modern web applications and digital products from concept to deployment. Focused on developing scalable, reliable, and intuitive software that solves real-world problems.

TECHNICAL SKILLS

Frontend Development: TypeScript, JavaScript, React, Next.js, Tailwind CSS, HTML5, CSS3, Responsive Design, Accessibility, Performance Optimization.

Backend Development: Node.js, Fastify, Go (Golang), REST APIs, Authentication, API Integration, Server-Side Development.

Database & Data: PostgreSQL, Supabase, SQL, Database Design, Schema Design, Row-Level Security, Data Modeling, Migrations.

Development Tools: Git, GitHub, npm, Vite, Docker, Postman, Playwright, Sentry, Chrome DevTools.

Web Technologies: JSON, WebSockets, Webhooks, PWA, Browser APIs, Web Performance, SEO, HTTP/HTTPS.

Soft Skills: Leadership, Problem Solving, Project Management, Client Communication, Time Management, Creative Thinking, Attention to Detail.

PROFESSIONAL EXPERIENCE

Independent and Freelance Full-Stack Software Developer | January 2023 – Present

Developed and maintained full-stack web applications, digital products, and custom software using modern frontend and backend technologies. Built responsive interfaces, REST APIs, database-driven applications, and PWAs while managing projects from requirements and architecture through development, testing, deployment, and improvement.

Founder & Full-Stack Software Engineer, Nick Frost Innovations | 2024 – Present

Built and maintained full-stack solutions, developing frontend interfaces, backend services, APIs, and application features. Designed and integrated databases and third-party services while managing development workflows including reusable components, version control, testing, deployment, and ongoing product improvements.

Co-Lead, Google Developer Group (GDG), FUOYE | 2026 – Present

Co-lead developer initiatives at GDG FUOYE, organizing technical workshops, meetups, coding sessions, and hackathons focused on modern software development and emerging technologies. Support students through practical learning, technical collaboration, and industry-relevant development tools and workflows.

President, Department of Computer Science (NACOSS), FUOYE | 2026 – Present

Lead NACOSS, overseeing organizational activities, technology initiatives, and strategic programs while coordinating executive operations and representing the association at institutional and external forums. Coordinate teams and stakeholders to deliver initiatives promoting software development, technical education, collaboration, and student engagement.

Computer Service Intern, SIM Computer Institute | 2018 – 2020

Provided technical support for computer setup, software installation, system configuration, troubleshooting, maintenance, and basic networking. Assisted users with hardware and software issues while gaining practical experience in computer systems and IT operations.

Selected Software Projects

Enque – Crowd and Workflow Management Platform · <https://enque.live>

NicksPay – Multi-tenant Digital Payment Platform · <https://nickspay.com.ng>

Ttenda – Smart Attendance Management System · <https://ttenda.vercel.app>

UniScore – AI University Screening Calculator · <https://uniscore.vercel.app>

EDUCATION

- **Bachelor of Science (B.Sc.) in Computer Science**

Federal University Oye-Ekiti | Nigeria | Expected Graduation: 2027

CERTIFICATIONS, AWARDS & RECOGNITIONS

- Computer Science Developer of the year – Federal University Oye Ekiti (2026).
- Digital Skills: Become a Successful Global Gig Worker – Jobberman (2026).
- CSS - The Complete Guide to CSS for Beginners – Udemy (2024).
- HTML - The Complete Guide to HTML for Beginners – Udemy (2024)
- Digital Marketing Professional – Institute of Management, Technology & Finance (2024).
